Here is the RAC...no KPIs. Thanks, Dee

<p>Dee Rothery</p>	<p>REGION CREATED RAC OPRA 02</p> <p>Emissions from New Oil and Gas Sources in Indian Country. Develop an enforceable mechanism for controlling emissions from new oil and gas sources in Indian Country, including on the Uintah and Ouray Reservation in eastern Utah, prior to the Tribal NSR rule deadline of September 2014 (or an extension date if granted). Such an enforceable mechanism could be a national general permit, a reservation specific general permit, or some type of federal implementation plan.</p>	<p>REG</p>	<p>ENFORCABLE MECHANISM</p>	<p>Indicator no 9/30/2014</p> <p>The Program continues to support OAR in the development of an oil and gas permit strategy for Indian country. This support included arranging site visit for OAR staff, conference calls, briefings, consultations and document reviews related to the development of an ANPR and related public hearing.</p>
